### Patersons busy growing

IT seems that Perth-based broker **Patersons Securities** won't stop until it has achieved world domination. After a bunch of opportunistic takeovers in 2009 that saw it expand into the eastern states, the firm is setting up another WA office, in East Perth. The new digs will be manned by **Kim Roberts**, **Patrick Connolly** and **Jenny Rogers**, who have committed to jump across from **RBS Morgans** with a team of advisers and support staff in tow.
